

Fruitful

The Imarika project helps people to plant hundreds of trees, including fruit trees. But which of these foods grow on trees?
pineapple, orange, guava, papaya, banana, passion fruit, avocado, cashew nut, peanut.

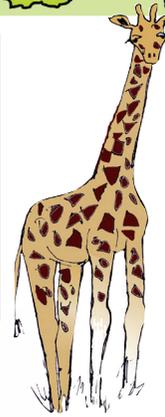

Enjoy an African snack

Try deep-fried locusts or mopani worms (a bit like prawns!)

The national animal is the giraffe!

Tanzania has more giraffes than any other African country, but numbers of giraffes are decreasing, due to poaching and loss of habitat. Masai giraffes have recently been declared an endangered species!
